

STOP the ADA

Education and Reform Act

Congress is going to vote soon on the ADA Education and Reform Act (H.R.620)

- The proposed legislation allows businesses to ignore ADA requirements until a notification is sent by a disabled person undermining the spirit of the ADA.
- The proposed legislation denies a person with a disability the right of due process through the courts by allowing businesses to indefinitely delay enforcement of the law.
- The proposed legislation shifts the burden of compliance from businesses to the disabled, many of whom do not have the resources to file to issue a proper notification.
- The ADA Network already provides ADA training and education; setting up an additional education program at the Department of Justice is unnecessary and wasteful.
